SARCOXIE NURSERIES PEONY FIELDS

WILD BROS. NURSERY CO.
SARCOXIE, MO.

Fall, 1949

Dear Customers

This year we celebrate our Diamond Jubilee. 75 years devoted to specialized horticulture. Thanks to you, our customers and friends, we have shipped into every state in the Union and several foreign countries.

Since graduating in 1931 from the University of Missouri until leaving in 1942 for the Armed Services, I was in charge of our Landscape Department. Soon after discharge from my military duties I took over the management of our office, which had for 45 years been the duties of my uncle, Charles M. Wild, until his death in 1946. Arthur O. Wild, my father, the 3rd generation of Wilds in our concern, manages field operations, propagation and growing of our nursery stock, his 43rd year in this work. We have all grown up in the business and are proud to say that the plants you buy are grown under the most modern methods. We maintain our own irrigation and cold storage facilities and supply you with well grown plants, full of life, the best of the nursery row. They are packed fresh. We are not too large to give your orders our special attention and always appreciate your comments.

Sincerely yours,

Dale E. Wild

THE NEW *Elm "Coolshade" . . .*

Undoubtedly the most beautiful Elm we have ever seen. It is a most practical all-purpose shade tree. Unlike the American Elm, it does not have large lateral limbs that are dangerous when overhanging the residence. It may be planted close to the house without worry.

IT'S TOUGH—does not break in the wind and under the burden of ice and snow like the ordinary Chinese Elm.

IT'S BEAUTIFUL—forms a compact tree, somewhat resembling the Hard Maple in form. (See illustration.)

IT'S HARDY—like all Chinese Elm, it is hardy and drought resistant. Apparently it is not subject to the Dutch Elm disease or Phloem necrosis, which affects the American Elm.

IT'S CLEAN—does not shed leaves early and cause an unsightly lawn—holds its leaves late into the fall.

IT'S RAPID IN GROWTH—not quite so rapid as ordinary Chinese Elm, however produces an abundance of deep green foliage affording a complete shade—a "COOLSHADE"—and a truly beautiful shade tree.

WE SINCERELY RECOMMEND THIS AS THE BEST ELM WE HAVE EVER KNOWN. Grows 35 to 50 feet high.

Viburnum Opulus—Cranberry Bush (page 12)

HARDY FLOWERING SHRUBS, continued

Viburnum opulus; Cranberry Bush. The parent of the Common Snowball, and like it in growth, but the white flowers are in flat clusters in May. The center flowers, which produce the berries, are small, with an outer ring of showy flowers like the individual flowers of the Snowball. The bright scarlet cranberry-like fruits, $\frac{3}{8}$ in. long, color in early August, remaining well into winter when not eaten by the birds. Endures partial shade; attains 8 to 12 ft.; prune, if necessary, after blooming.

18 to 24 in..... .65 each

Vitex; New Chaste Tree. Its long spikes of small, rather deep lavender blue flowers at the ends of the branches in July and at intervals till fall, somewhat resemble those of the Butterfly Bush. It makes a distinctive, rather large shrub of graceful, open airy habit, with five-fingered leaves, dark green above, grayish beneath, with an aromatic pungent odor. Not yet in general use, but desirable in the shrub border for contrast.

Privet the Living Fence

Plant 10 to 12 in. apart. Prune back to within 4 to 6 in. of the ground to make them branch low and thickly. The second spring, if not sufficiently thick, again prune back, a little higher. After that prune to keep the hedge the height and width desired, usually about three times a year. Avoid severe pruning after the middle of August.

Privet, Amur River North; *Ligustrum amurense*. A rapid growing Privet of upright habit, taking the place of California as it is reliably hardy here. Very fragrant small white flowers like tiny lilacs in late May, followed by black berries; seldom blooms when pruned as a hedge.

Hardy Vines - NATURES DRAPERY

When planting cut the tops back severely, particularly clinging vines such as *Euonymus radicans* and Boston and English Ivy, as it is the new growth which clings. Twining vines must have a support they can twine around. If the soil near the foundation is poor, replace with good soil.

If by parcel post, add 4c each—not less than 15c per package.

Bittersweet, Oriental. A high climbing vine; orange-yellow seed pods reveal bright red seed along the branches in autumn; thrives in sun or partial shade; twining.

Beautiful Evergreens

Specimens every one. Dug with a ball of earth and wrapped in burlap. They are the pick of the nursery row and sure to please. B. & B. indicates Balled and Burlapped.

Our evergreens are grown with plenty of room and are compact, well filled trees of their size and variety. They have been transplanted and root pruned and are well rooted. They are not grown rapidly and soft but are firm and easily transplanted. They are liberally graded.

Junipers

The Junipers vary greatly in size from large trees to low trailing forms, in shape, and in color from deep green to silvery, blue and gold. Some assume a purplish or plum color in winter. The leaves are of two kinds: one sharp pointed and awl-shaped, the other scale-like and overlapping. Some varieties have only one kind of foliage, others both. Red Cedar and its varieties are really Junipers, but are often called Cedars.

3 to 4 ft., B. & B.....	3.50 each

Euonymus Patens. Evergreen bittersweet shrub. A broad, compact, shapely bush with glossy leathery leaves; small greenish white flowers in summer, followed by scarlet bittersweet-like red fruit remaining on the plant all winter; sun or shade; grows 4 to 6 ft.; excellent for foundation planting; can be trimmed to height desired.

15 to 18 in., B. & B.....	1.50 each
---------------------------	-----------

Euonymus Vegetus. For sun or shade, a spreading shrub-like plant with beautiful glossy light green foliage. By clipping, it forms a dense shrub of any desired shape up to 4 feet high by the same width. Produces bittersweet-like berries in fall. We prefer this evergreen shrub to *Euonymus patens* because it retains its leaves better during the winter, making it truly an evergreen.

15 to 18 in., B. & B.....	2.50 each
18 to 24 in., B. & B.....	3.00 each

Euonymus, upright radicans. UPERAD. This versatile evergreen shrub we sincerely recommend as one of the best dense dark green leaved *Euonymus*. Excellent when used as an evergreen hedge, can be kept low or grown to 3 feet. It is beautiful as a specimen grown unsheared in foundation plantings. If planted close to a brick or stone wall its new growth will finger out and cling to the wall, making a beautiful light covering. If staked, it can be grown as a column to 6 feet.

Smaller 2-year plants available for border hedges supplied, bare root, \$4.00 per 10, postpaid.

Mahonia aquifolium. Oregon Hollygrape. One of the most handsome broadleaf evergreens with the shiny metallic holly-like leaves. Dark glossy green during summer, becoming purplish bronze to red in autumn. Yellow flowers in summer, followed by purple berries in the fall. Grows 3 to 6 feet.

15 to 18 in., B. & B.....	2.50 each
18 to 24 in., B. & B.....	3.50 each

Nandina Domestica. A semi-evergreen shrub with numerous upright reed-like stems. Grows 3 to 4 ft., producing large clusters of red berries that are at their best during Christmas season.

15 to 18 in., B. & B.....	2.25 each
18 to 24 in., B. & B.....	2.75 each

Pyracantha lalandi. Scarlet firethorn. A picturesque upright thorny shrub with box-like evergreen foliage. Has white flowers followed with fiery orange red fruits, lasting well into the winter. Used as specimen shrubs or trained against a wall.

Please allow sufficient postage if ordered by Parcel Post. Postage is additional except on items priced postpaid. We refund every cent not used.

Missouri customers please add 2% Sales Tax as required by state law.

Our Guarantee

We offer only first grade stock and guarantee every plant we ship to be of first quality, sturdy and free from disease and to reach you in perfect condition.

We exercise care and diligence to have our varieties true to label and sell all our stock with the express guarantee that we will, on proper proof, replace any that may prove otherwise, or refund the amount paid for the same, which shall constitute the extent of our liability.

Parcel Post-Express-Freight

Prices herein are not prepaid unless quoted postpaid. Manufactured articles can be of uniform size and weight. Nursery stock varies, even the season when shipped sometimes making a difference. If we prepaid the larger sizes we would have to estimate sufficiently so we wouldn't lose on the average, and most of the time you would be paying too much.

Parcel Post. Plants (except Evergreens) up to 5 ft., can be mailed. Please allow sufficient postage, we refund every cent unused.

Express. Best for larger orders, especially if bulky.

Freight—Truck or Railroad. Best for Evergreens of large size. Truck freight leaves our plant twice daily and has proved very satisfactory for bulky orders.

Missouri Customers—Please add 2% Sales Tax required by state law.
